

DID YOU KNOW

Firefighters have a 62% higher risk of developing esophageal cancer?¹

Get screened, here's how:

Step 1: Understand your risk

You may be at increased risk of developing esophageal disease if you have 3 or more of the following risk factors:

- Chronic GERD
- Age over 50
- Male
- White Race
- Smoker
- Obesity
- Family History of Esophageal Precancer or Cancer
- Occupational or Environmental Exposure (smoke inhalation/fire/chemicals)

Step 2: See if EsoGuard is right for you

If you have 3 or more risk factors, scan the code or visit the link below to schedule your screening day appointment:

www.signupgenius.com/go/10C0A4FACA922ABF8CF8-62686495-esoguard#

Step 3: Attend your in-person screening appointment

Once scheduled, please attend your screening day appointment.

Step 4: Get screened
